### **DETAILED ACTION**

This Office action is in answer to the amendment filed 11/16/2003.

#### ***EXAMINER'S AMENDMENT***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Joe Muncy at 703/205-8000 on November 10, 2005.

3. The application has been amended as follows:

#### **In the claims:**

Claims 1, 15 are amended as per attached.

#### ***Allowable Subject Matter***

4. Claims 1-23 are allowed.

With regard to claims 1-23: none of the references of record prior to applicant's filing date discloses, teaches, or suggests an energy balance circuit for a charger to evenly charge a battery set with a first battery and a second battery connected in series comprising, *inter alia*, a first switch, whose one end is coupled between the first current storage device and the voltage storage device and the other end coupled between the first battery and the second battery; and a second switch, whose one end is coupled between the second current storage device and the voltage storage device, and the other end coupled between the first battery and the second battery; wherein the switches are rapidly turned on and off in such a way that the switch corresponding to the battery with a higher terminal voltage is turned on and off at a high frequency so that the energy in the battery with the higher terminal voltage charges the corresponding current storage device and the energy stored in the voltage storage device charges the battery with the lower terminal voltage.
